The Q® grills range in size from the smallest portable Q® 1000™ gas grill; ideal for the thrill-seeking griller on the go, to the largest Q® 3200™ gas grill made for the city dweller with a small patio. Also featured in the series are two electric portable grills. Just plug the electric grill into an outdoor electrical supply and expect the same superior results as the gas grill. All Q® grills ignite with a push of a button and are equipped with porcelain-enameled, cast-iron cooking grates.

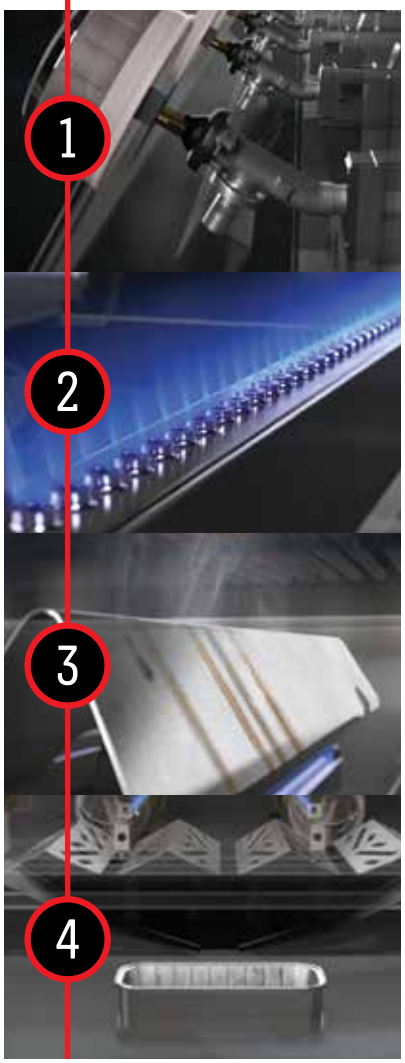
GS4™ HIGH PERFORMANCE GRILLING SYSTEM



INFINITY™ IGNITION

The Infinity Ignition is guaranteed to ignite every time. Backed by a generous warranty, rest assured that you'll be up-and-grilling the first time, every time.

HIGH PERFORMANCE BURNERS

The unique, tapered shape delivers a consistent gas flow from front to back. This provides ultimate heat distribution, ensuring that food grills evenly and consistently anywhere on the cooking grate.

FLAVORIZER® BARS

The classic Weber® Flavorizer bars are angled just right to catch drippings that smoke and sizzle, adding that irresistible smoky flavor we all know and love to your food. Any drippings not vaporized follow the slope and are funneled away from the burners, down into the grease management system.

GREASE MANAGEMENT SYSTEM

The grease management system helps with the removal of grease while reducing the risk of flare-ups. Drippings that are not vaporized by the Flavorizer bars are funneled away from the burners into the disposable drip tray, located within the catch pan under the cookbox. Simply remove the catch pan and replace the drip tray as needed.

iGRILL® 3 READY

TAKE THE **GUESSWORK** OUT OF GRILLING.

iGRILL® 3 DEVICE SOLD SEPARATELY

7204 WEBER® iGRILL® 3

The iGrill® 3 digital Bluetooth® thermometer monitors the internal temperature of food from beginning to end, and will notify you once reached the perfect degree to serve.

Each Genesis® II and Genesis® II LX grill is iGrill® 3 Ready. This means that you can install the iGrill® 3 digital Bluetooth® thermometer into the side table and sync it to your mobile device. Simply download the Weber iGrill® app on your mobile device and sync it to your Genesis® II or Genesis® II LX.

Connect up to four temperature probes and monitor your steak, chicken, or roasts all at one time. The iGrill® app also displays the amount of fuel left in your gas tank.

CONSUMER ENGAGEMENTS

WEBER'S GRILL MASTER CAN ENHANCE DEMOS AND SPEAK TO BOTH BRANDS.

Kevin Kolman holds the title of Weber Grill Master for a reason. His high skill level behind the grill, passion for barbecue, and enthusiasm for the Weber brand are just part of why he is the go-to for all things grilling. Owning a mere 46 grills (and growing) himself, he has had plenty of experience with Weber's ever expanding product offering over the years. His extensive hands-on experience and scrutiny of all Weber® products fuels him while facilitating grilling demonstrations and classes at the Weber Grill Academy and around the globe.

Kevin's experience from co-instructing a Barbecue Science course at The Ohio State University, and teaching around the world, makes him one of the most credible sources of BBQ. Also, being a certified Kansas City Barbecue Judge allows him to judge barbecue competitions and enjoy some of the best BBQ from all different parts of the world. He participated in the CBS special Tailgate Turnover, has filmed commercials for the Food Network, and has represented Weber in the media through various other outlets including print, radio, and television.

Kevin's passion stems from anything and everything that has to do with grilling. This includes, but is not limited to, educating consumers on the art and science of grilling, partnering with food, wine, beer, and spirit brands, holding grilling competitions, and simply enjoying time around his Weber® grill with family and friends. As Kevin would say, "The most pure and honest gift you can give someone is to cook for them; and for me, that always happens around my Weber® grill."
